For Immediate Release

November 5, 2007

Stuart Olson selected as Construction Manager to build Edmonton's New Remand Centre for Alberta Infrastructure

Edmonton, Canada - The Churchill Corporation (TSX: CUQ) announces that Stuart Olson Constructors has been selected as Construction Manager to build Edmonton's New Remand Centre by Alberta Infrastructure and Transportation. The total construction budget as approved by the Province of Alberta's Treasury Board is \$620 million. Stuart Olson's expected revenue from this project is approximately \$523 million.

The project involves the construction of a 2 storey development of approximately 56,500 square metres and will cover a site of over 16 hectares. It will be designed to accommodate approximately 2,000 male and female inmates. Site preparation and earthworks began in October 2007 and construction of the seven "podular" 3-tier housing units is expected to begin in the spring of 2008; taking approximately 5 years to complete. This award will be added to Stuart Olson's published work-in-hand balance as the contracts necessary to complete a project of this magnitude are finalized and responsibility is assumed.

It is Churchill's policy to announce only those new awards or contracts that constitute a material change.

The Churchill Corporation provides building construction, industrial construction and maintenance services throughout western Canada. Churchill common shares are listed on The Toronto Stock Exchange under the symbol "CUQ".

FORWARD LOOKING STATEMENTS

Certain statements in this Press Release may constitute "forward-looking statements". Although management of Churchill believes its expectations regarding future performance of the Corporation are based on reasonable assumptions and currently available competitive, financial and economic data, market conditions and operating plans, it can give no assurance its expectations will be achieved. Such forward-looking statements involve risk, uncertainties and other factors that might cause the actual results, performance or achievements of the Corporation to vary significantly from any future results, performance or achievements expressed or implied in any forward-looking statements.
